Tele-Agent Main Plan

What is ZW's Tele-Agent? It is a telegram bot that acts on Zamar's behalf. You ask the bot questions concerning Zamar and it will answer you as long as the question pertains to his skills, projects, experience, or how to contact him.

Tech stack Plan

- Node.js
- Express
- Node Telegram Bot API
- Google Gemini API
- TypeScript

Dependencies Plan

1. @google/generative-ai dotenv express node-telegram-bot-api
2. @types/express @types/node nodemon tsx typescript --save-dev

Commands Plan

1. `/start` - Start the bot.
2. `/help` - Shows the help message.

Aside from these commands, users should be able to just speak to the bot like they would text their friend.
